S. Harpal Singh, Joint Director, Employment Generation and Training Pb. (Retd.) addressed the students of B.Tech at a guidance seminar organized by BFCET. DSW, BFCET welcomed the speaker and requested him to interact with the students.

S. Harpal Singh, while addressing the students said, “In the present times guidance regarding career is needed most as students choose commonly known programs as their career options. They choose courses under the parents as well as peer pressure and ignore interest, abilities and capabilities of their own.” He laid emphasis on some points to consider before opting for a course:

- Aptitude
- Economic viability
- Scope when a student completes his degree or course.

He further added that during his tenure as Joint Director Employment Generation, he had always motivated the students to have practical skills rather than theoretical knowledge because today industry needs only those engineers who are skilled and industry savvy. He also said that there was no dearth of job opportunity but the job seekers must be employable.

Principal BFCET presented a vote of thanks.
